

Charter Plastics

Polyethylene. Pipe. Partners.

CHARTER PLASTICS, INC.

We specialize in manufacturing quality pipe made from Medium & High Density Polyethylene. Meeting or exceeding industry standards, Charter pipe is preferred among underground utilities & contractors due to tight adherence to dimensional & quality tolerances. Includes pipe for Potable Water, Sewer, Reclaimed Water, Natural Gas, Industrial, Geothermal & Irrigation applications. Available in a wide variety of pressure ratings and pipe sizes through 24".

CHICAGO FITTINGS CORPORATION

CHICAGO FITTINGS CORPORATION

Manufacturer of the "X-Riser", Adapters, Service Head Adapters, Couplings, Punch Tee's and Line Stoppers for the Natural Gas & Propane industries. Chicago Fittings products consist of a bottoming nut (Positive Stop) feature that eliminates the need for torque measurements. The machined hex style nut and body make for easy assembly and can be provided with a wide variety of finishes to meet all your company standards.

CONSOLIDATED FITTINGS & FABRICATIONS

Consolidated Fittings and Fabrications (CFF) manufactures high density-polyethylene bends, tees and wyes to industry standard dimensions as well as to customer specific dimensions. CFF maintains an extensive inventory of various fitting configurations and often times can ship upon receipt of order. CFF also fabricates HDPE manholes, valve vaults, headers, diffusers, and perforated PVC and HDPE pipe to meet specific project requirements. All butt fusion joints are stamped, recorded, and retained as a permanent record for production traceability and quality assurance.

COPPERHEAD INDUSTRIES, LLC

Introducing the next generation tracer wire for locating non-conductive underground piping facilities. Combining the strength & durability of steel with the conductivity & galvanic corrosion resistance of copper, Copperhead performs better, and is a more cost effective alternative to 100% copper tracer wire. Experience twice the tensile strength and impact resistance of comparably sized soft drawn solid copper wire while reducing your acquisition cost with Copperhead Reinforced Tracer Wire. Available in AWG sizes #10 thru #14 in spool sizes of various lengths for both conventional & horizontal directional drilling installation methods.
