

KING INNOVATION®

KING INNOVATION

King Innovation® specializes in the design of DryConn® Waterproof Connectors for the utility industry, pre-filled with dielectric sealants, protecting splices from corrosion & moisture. DryConn VisiLock™ with SmartGel™ is King's newest innovation, designed for outdoor or direct-burial tap/branch cathodic splices up to 50V. King 6 Yellow wire connectors are for low voltage and line voltage applications up to 600V. The DBSR(tm) Yellow wire connector is an all-in-one direct bury twist-on connector with a strain relief lid, designed for splices up to 50V. DryConn Direct Bury Lug Yellow makes tracer line installation quicker and easier, without cutting the main line, and is designed for splices up to 50V.

M-B-W INC.

MBW is attracted to the utility industry's opportunities for product improvement and innovation. Over the past 5 years MBW has identified and moved forward on a number of R&D projects intended to address problems for which there was pressing need, but no acceptable means of resolution. The Vapor Extraction Unit, Vibration Suppressor, and Soil Compaction Supervisor 2, are a few examples.
